PROJECTS

TLN Library Map
Live // Repo

Map app utilizing React, Mapbox GL JS, and uber's react-map-gl library to render a map of libraries in The Library Network cooperative.

Includes responsive map that conditionally renders an infowindow based on hovered/selected library and a sidebar that allows users to search and filter libraries by text input and selected lending policies.

Cat Detective Memory Game
Live // Repo

Utilize CSS, vanilla JS, and cat GIFs to create a memory game.

Includes use of Flexbox, CSS transitions, and vanilla JS to add gameplay functionality such as scorekeeping, game reset, choice of game size, and keyboard accessibility.

Weather Now!
Live // Repo

Weather app utilizing CSS, vanilla JS, and the OpenWeatherMap API.

Includes use of CSS to create an info menu and gradient background dependent on weather. Vanilla JS, OpenWeatherMap API, and Google Time Zone API used to provide city search and display local date/time and sunrise/sunset times.

FeedTech Landing Page
Live // Repo

Utilize semantic HTML, SCSS, and vanilla JS to create a professional and responsive product landing page for a fictional product from M.T. Anderson's *Feed*.

Includes use of Flexbox, media queries, vanilla JS (mobile menu), and external JS plugins (smooth scroll and scroll spy), and Marty McFly.

SKILLS, ETC.

• Comfortable with HTML, CSS, basic SCSS, responsive design, intermediate JavaScript, basic React, version control (Git/Github).
• Currently learning all things JavaScript (React, Node, Express) and databases (SQL).
• I have published (Ch. 7) and presented in the library community and enjoy learning and sharing knowledge.

EDUCATION

Wayne State University
2011: BA, English, with Honors
2016: Masters, Library & Information Science

Personal
April 2018 - Ongoing: Shift_Up Training Program
Part-time web development learning community in which I work with dedicated learners and experienced mentors 10-20 hours/week focusing on JavaScript.

Jan. 2018 - Oct. 2018: Grow with Google Scholarship for the Udacity Front End Nanodegree

Nov. 2017 - Jan. 2018: Chingu Voyage 3
Joined an online coding community to work with two other people learning to code (in CA and NJ) in order to create a website from scratch.

EXPERIENCE

Adult Services Librarian & Associate
Feb. 2015 - Present | Redford Twp. District Library
Create scorekeeper web app by colleague request to make their life easier. Manage monthly email newsletter. Design displays, instructional, and informational materials. Manage music collection.

Substitute Librarian
Nov. 2017 - Jan. 2019 | Fraser Public Library
Fully implement 3D printing service and fill in at reference desk when available.

Adult Services & Technology Librarian
Jan. 2017 - Nov. 2017 | Baldwin Public Library
Create scavenger hunt accessible via mobile browser to acquaint patrons with the newly renovated library. Move from 3D printer and laser cutter in boxes with no plan forward to fully functioning makerspace in 10 weeks. Provide patron assistance, order and maintain collections, and lead book club.

Graduate Student Assistant
Aug. 2014 - Dec. 2016 | Wayne State Univ. Libraries
Design, create, and maintain instructional videos for Wayne State Library's YouTube page. Design, assist, and lead in-person and digital library instruction while keeping empathy, sustainability, method of delivery, and feedback in mind.
